

Colorado Spine Therapy, LLC

Colorado Spine Therapy Newsletter

Welcome to Colorado Spine Therapy! We realize that you, as a patient, can choose from a variety of healthcare providers to help you with your neck and/or back pain. Hence, we would like to thank you chose us and hope this newsletter will provide you with some helpful information to get to know us a bit better!

1. We are the **only privately owned physical therapy clinic** in the Denver Metro area **specializing** in non-surgical care of **neck and back pain**.
2. We accept **most health insurances, including Medicare** and also have a very **affordable self-pay option**. (see www.coloradospinetherapy.com for details)
3. We will verify your insurance for you, no unpleasant surprises.
4. You will always work with a **highly educated, specialized, Licensed Physical Therapist** and not be handed of to an assistant or aide.
5. Your Physical Therapy session will always be **45 minutes or more** if needed.
6. Colorado is a **Direct Access State**; meaning, you **don't need a referral** from your physician to see us (**Unless your insurance is:** Medicare, Workmen's Compensation or Motor Vehicle Accidents) Of course, we will always send our reports to your (family) physician.
7. In addition to physical therapy, **we offer classes** ranging from a Back Education Class to meditation classes to provide you with additional tools in helping your back or neck heal.
8. Since we are a specialty clinic we have built **an extensive network of physicians and other healthcare providers** who share the same philosophy; an emphasis on evidence based **health care** and **not health business**.
9. We are **conveniently located** at the corner of I-25 and Colorado Boulevard.
10. **Choose us** and you will **support a local business** instead of a large corporation where your Physical Therapist (or an assistant/aide!) will spend 20 minutes with you. **Your costs are the same, if not less, if you choose us!**
